## BRITAIN CONFIDENT SUBMARINE THREAT WILL BE REMOVED

Convoy System Will Soon Be in Full Operation—  
Prime Minister Tells Parliament That Allies  
Will Never Make Peace With Government  
Headed by Fuehrer Hitler

LONDON, Sept. 14 (CP).—The Ministry of Information in a communique issued early today, expressed "calm confidence" in the Allies' power to erase the threat of Germany's submarine warfare from the seas.

The communique said that it remains to be seen whether Fuehrer Hitler has decided on "unrestricted" submarine operations, but added this would seem to be the case in view of the sinking of the Athenia.

Prime Minister Chamberlain reported to the House of Commons yesterday—the first day of the war on which no reports were received of submarine attacks—that Great Britain's merchant fleet has suffered "somewhat severe" losses. But he said the losses involved lone ships, at sea when hostilities broke out. Observers were heartened by the day's apparent quiet at sea as indicating possibility of diminishing submarine threats.

The communique pointed out that "meanwhile it is clear that the life of the British Empire, together with all the Empire's warlike and economic activities, goes on much as it did before."

## Poles Battle to Halt Nazi Drive On Capital City

Conflicting Reports Continue to Filter Through  
Neutral Sources—Germans Claim Successes—  
Paris Says Armies of Poland Continue Resistance—  
Warsaw Banks Reported Reopened

PARIS, Sept. 13 (CP-Havas).—Warsaw broadcasters, claiming recapture of the key city of Lodz, announced tonight the Polish armies of Poznan and Pomerania had fought their way together during the day and were now making a joint stand in the Kutno zone to the west of the capital.

The Polish telegraphic agency's report from Warsaw said that the Germans had abandoned valuable arms and munitions when they hastily evacuated Lodz, ninety miles southwest of the Polish capital.

The same communiques asserted that the Polish capital was continuing to hold out against the German armies attempting a pincer movement from the north and southwest.

A proclamation that Warsaw was out of danger for the moment was posted throughout the city's streets. Signed by General Gzima, in command of Warsaw's defense, the proclamation said that the Germans had been driven from the capital's immediate vicinity.

Warsaw banks resumed operation, accepting deposits without restrictions as to withdrawals, the radio reports said.

GERMAN VERSION  
BERLIN, Sept. 13 (AP).—A German army report tonight claimed that Warsaw was completely encircled.

Citing in on the Polish capital, German forces said that they had wiped out Polish resistance on one of three fronts defending the city.

A high command communique asserted that "enormous numbers" of prisoners were captured in a battle ending Polish resistance south of Radom, about sixty miles south of Warsaw.

Although the army report did not elaborate on Warsaw's encirclement, Continued on Page 2, Column 3

## POLISH BOMBERS HELD IN RUSSIA

MOSCOW, Sept. 13 (AP).—Tass, Soviet official news agency, reported that a number of Polish bombing planes today had flown over the Russian frontier and that four were forced down by Soviet planes and their crews detained.

Three planes crossed the frontier, near Moxry, White Russia, and their crews told twelve men, were held.

The fourth ship forced down by Soviet fighters was among a group which flew over the border in the Ukraine. The twin-motored craft and its crewmen were seized.

## Ten Troopships With Destroyers Pass Gibraltar

ALGECIRAS, Spain, Sept. 13 (AP).—Ten British troopships escorted by destroyers passed Gibraltar today en route to France. Two ships arrived at Gibraltar from England, one disembarking several thousand soldiers to reinforce the garrison, the other unloading war supplies.

## TWO ADDED TO CABINET

Premier of France Shuffles  
Ministry and Assumes  
Wider Powers

PARIS, Sept. 13 (AP).—Premier Daladier added the Ministry of Foreign Affairs and presidency of the War Council to the posts of Premier and National Defence Minister which he already holds in a Cabinet shuffle today.

Assuming powers that give him control of the nation's activities along the international as well as the war fronts, Daladier moved Georges Bonnet, the Foreign Minister, to the Ministry of Justice.

TWO MINISTRIES ADDED  
Daladier's Cabinet shuffle resulted in creation of new posts to meet the needs of war, but it disturbed the old Cabinet as little as possible in order to preserve a maximum of administrative continuity.

The Premier added two ministries—blockade and armaments. He named Senator Georges Perrot, of the Republican Union group, to the blockade post, while Raoul Dautry, former director of the National Railways, became armaments minister.

Any hope that he had of forming a National Union Government was dashed today when the French Socialist Party—largest party in the Chamber of Deputies—declined to participate unless it was given a role "commensurate with its strength and responsibilities."

IS MAYOR OF RHEIMS  
In the Justice Ministry, Bonnet replaced Paul Marchandeau, who resigned to devote all his time to his job as mayor of Rheims.

Yvon Delbos became National Education Minister, replacing Jean Zay, who withdrew to serve with the army on the front.

Senator Alphonse Rio became Merchant Marine Minister, succeeding Louis de Chappedelaine, forced out by ill-health.

## CALLS CONGRESS ON NEUTRALITY

Bitter Battle Is Foreseen  
When Congress Meets  
On September 21

WASHINGTON, Sept. 13 (AP).—President Roosevelt today called a special session of Congress for September 21 and thereby gave the signal for a struggle over his proposal that the United States embargo on armaments to belligerent nations be abolished.

Administration men insist that the embargo as such is essentially neutral, in that through it Great Britain deprives Great Britain of the advantage to be gained from its huge fleet and control of the seas.

They contend, too, that it is inconsistent to embargo actual armaments—guns, ammunition, airplanes and the like—and yet freely permit sale of the raw materials from which the instruments of death can be manufactured.

Opponents of repeal argue that to make American arms available to Great Britain by changing the law would be an act unfriendly to Germany and therefore unneutral. It would be an act of such potentialities, they added, that the eventual entry of United States into the war might be inevitable.

## Meet Death When Engine Hits Motor

CLOVERLEAF, Man, Sept. 13 (CP).—C. Bengart, sixty-eight, and his thirteen-year-old son, James, were killed today when their automobile crashed into a freight engine at a level crossing near here.

Bengart farmed near Cloverleaf, which is on the Canadian Pacific Railway thirty miles east of Winnipeg. Railway officials reported Bengart waited at the crossing while an eastbound freight train went by and then started across the tracks unaware of the westbound locomotive.

## FRENCH CONTINUING ADVANCES INTO GERMAN FORTIFIED AREA

## War News in Brief

By The Canadian Press

PARIS—French report mile advance on Western Front and say several hundred thousand British troops are in France. Premier Daladier forms new War Cabinet.

LWOW—After a stand along San and Vistula Rivers, Polish troops retreat eastward; city bombed heavily.

LONDON—Government believes Germany might try to establish sea and air bases in South America; British bombing will depend on what Reich does with planes against unfortified Polish cities.

BERLIN—High command says new victories over Poles include advance on Lwow and surrounding of Modlin, northern key to Warsaw defence ring.

BERLIN—Government decrees contraband law citing long list of materials as defence against English blockade.

BUDAPEST—Polish officials, including Vice-Premier and Finance Minister reported to have crossed into Rumania.

ROME—Italy will make her own decision on war role and will define it gradually, says authoritative commentator.

OTTAWA, Sept. 13 (CP).—Prime Minister Mackenzie King and his ministers tonight turned their whole attention to the mobilization of Canada's men and resources for the struggle against Nazi Germany, assured of the co-operation of both Houses of Parliament.

As the special war session, called to approve the Government's decision to enter the war at the side of Britain and France and enact war legislation, was prorogued this afternoon, Parliament surrendered many of its powers and prerogatives for duration of the war.

At the closing ceremony in the Senate Chamber, Governor-General Lord Tweedsmuir gave Royal assent to a bill authorizing the Government to spend up to \$100,000,000 for Canada's initial effort in the second great war.

GIVEN WIDE POWERS  
He assented to nine other wartime measures, including a bill empowering the Government to create a Department of Munitions and Supply with sweeping powers over industrial life.

The session lasted six days, one day longer than the special session of 1914 when Canada last entered a war.

The pomp and color of a peacetime session and prorogation were absent. The Governor-General wore formal morning clothes instead of the uniform he wears on more gala occasions and the officers wore khaki.

Proceedings today were confined to the Senate Chamber. The House of Commons passed all the Government legislation, including the budget with its new and increased taxes, Tuesday night.

Most of the members and Senators left for their homes tonight, on the understanding they would meet again for a regular session in January.

Several millions of dollars will be involved in British Columbia's contribution to Canada's wartime effort; unofficial estimates placing the added toll near \$10,000,000 annually.

While official comment was reserved and Provincial departments wary of anticipating results before they accrue, increase in income taxation by the surtax and corporation taxes may run into several million dollars. It was pointed out that the increase of taxation on personal incomes would be one-fifth of the

## Authorized Military Dispatches Claim Substantial Headway Being Made—Several Hundred Thousand British Troops Landed in France—Artil- lery and Air Forces Join in Major Battle

## More Than Million Tons of German Shipping Off Seas

PARIS, Sept. 13 (CP).—France's armies slowly advanced into the fringes of Germany today. The advance continued as authorized French quarters announced several hundred thousand British troops have landed in France unhampered either by submarine or aerial attack.

The French advance, under cover of artillery and aviation, was characterized by military dispatches as "substantial" both east of Saarguemines and west of Saarbruecken. Near the Warndt Forest the French were declared to have seized "one or two farms."

## IMPROVE CAPTURED POSITIONS

The evening war communique said: "Our troops are improving all positions captured during the past few days. The naval forces are reacting vigorously against enemy submarines. Aviation activity has been reduced, due to bad weather."

As the ground forces felt their way slowly across No Man's Land between the Maginot and Siegfried lines, Allied air forces engaged the enemy in the first major battles of the new war.

(A British Government statement to Parliament acknowledged that the Royal Air Force had a number of squadrons operating from French soil.)

## PURSUIT PLANES IN ACTION

Pursuit ships of both sides blazed into action, resulting, French sources said, in destruction of three German planes and "one or two" French.

Military dispatches said the French advances had almost removed the French frontier town of Saarguemines from the range of German artillery.

French artillery bombardments were said to have caused the Nazi army to begin removal from its Saar headquarters at Saarbruecken.

Informed French comments on Western Front activities said: "Not a single German soldier is actually on French soil."

## WARRING ON SUBMARINES

The official communique of war operations said French naval forces had "reacted vigorously against enemy submarines."

Going more into detail, semi-official explanations said: "The most delicate of operations—embarkation and landing of large bodies of troops—has been accomplished without incident, such as submarine or aerial attacks. This refers to the passage to France of several hundreds of thousands of British troops."

The English and French fleets, ten days at sea, continued in advance the complex task of blockading Germany and clearing the seas of submarines.

The explanations said the results to date were 1,065,000 tons of German shipping swept from the seas—sunk after the crews had been placed in safety or driven into neutral ports.

Allied maritime traffic is being less and less troubled by submarines after the losses coincident with the beginning of the war, the statement added.

Two Conservative afternoon newspapers, Le Temps and Le Journal Des Debats, described yesterday's meeting of the French-British Supreme War Council as a complete answer to German efforts to separate France and Britain from Poland.

Some relaxation of the war regime in Paris was announced. A number of moving picture theatres will be allowed to operate until 10 p.m., provided the number of spectators does not exceed the capacity of nearby homefront shelters. Hereafter, all theatres closed at 8:30 p.m.

## SCORES DIED IN RAID ON LUCHOW

Japanese Bombs Wrecked Canadian Mission in China—Toronto Minister Tells of Damage

CHUNGKING, Sept. 13 (CP-Havas).—Rev. J. O. Endicott, of the United Church of Canada, returning today from the bombed city of Luchow, said that the Japanese air raid which destroyed the Canadian mission there killed more than forty Chinese, wounded as many and left 2,000 families homeless.

Mr. Endicott was a member of a special medical mission sent to Luchow.

A fleet of thirty-six Japanese bombers was believed to have carried out the raid. Part of the church still standing is serving as a refuge for 100 homeless families.

Mr. Endicott estimated that one-third of Luchow was wrecked by the raiders. He flew there yesterday with a Chinese medical unit. When he left this morning, he said two Canadians in the city, Mrs. Constance Ward, Vancouver, and Rev. A. C. Hoffman, Redwood, Ont., were safe.

# Victoria Enjoys Citizens' Day at Annual Fall Fair

Perfect Weather Favors B.C. Agricultural Association for Big Day of Exhibition—Livestock Parade Highlight of Successful Afternoon—Interesting Events Scheduled for Today

**F**AVORED by another beautifully fine day, with warm sunshine and a clear sky, residents of Victoria, the adjoining municipalities, and Up-Island districts flocked to the Willows in their thousands yesterday afternoon for Citizens' Day at the Provincial Exhibition.

Highlight of the day was the annual parade of livestock, in which some of the best of British Columbia, Alberta and Washington, have to offer in horses and cattle were displayed inside the race track before a packed grandstand and rails lined several deep by interested spectators.

Bells jingling and their polished harness and brightly painted wagons gleaming in the sunlight, the three handsome six-horse teams led the parade, followed by the heavy and thoroughbred horses, beef and dairy cattle and goats. Frisky little foals,

kicking up their long legs as they ran beside their dams, delighted the youngsters among the spectators.

## MIDWAY THRONGED

All through the afternoon and until a late hour at night, the midway was thronged with merry holiday makers, trying their luck at the many games, buying heavily of the inevitable hot dogs, popcorn and candy, and keeping the exciting amusement devices constantly in motion.

At night the fair grounds were ablaze with light and white hundreds attended the horse show conducted nightly in conjunction with the exhibition, many more chose the garish lights and fun of the midway.

Two annual events of special interest are scheduled for today. At 9:30 a.m. budding young farmers of both sexes will take part in a stock judging competition, and at 2:30 p.m. they will engage in a cattle showmanship contest.

Though the fair was in its fourth day, many of the judges were kept busy yesterday, for entries were heavy in almost all sections.

## CLYDESDALES

Judging of the section for Clydesdale horses was completed yesterday, and gave the stallion championship to James Turner, Cadboro Bay, for Canute of Poullwood, which also won the gold medal presented by the Clydesdale Horse Association of Canada for the best stallion in the section. The reserve stallion championship was awarded to James Pybus, New Westminster, for Radiance Reward.

Charles C. Gordon, Carstairs, Alta., captured the Clydesdale mare championship with Fanny of Fouliswood, and the reserve championship with Dornum Lassie. The section was judged by I. L. Beattie, Mission City.

## SHEEP

Earlier in the week it was anticipated that the judging of the sheep section, the second heaviest division of the show, with only one judge, W. MacGillivray, Kamloops, for all classes, would not be completed until today. However, Mr. MacGillivray completed the last classes late yesterday.

In the Dorset Horn section, Charles Turner, Westwood, B.C., was the only exhibitor, and took the open and British Columbia championships for rams with Turner C 718 and the open and British Columbia ewe championships with Turner C 37R.

D. S. Blacklock, Matsqui, B.C., won the open and British Columbia Cheviot ram championships with Blacklock 118, and the open and British Columbia ewe awards with Blacklock 1P.

A particularly strong section in the sheep division was that for Buffaloes, in which there was a large number of entries from many parts of Western Canada. The following championship awards were made:

Rams—Open championship, C.P.R. Department of Natural Resources, Calgary, C.P.R. Farm 43P; British Columbia championship, Douglas R. Pigot, Golden, B.C.; B.C. ewes—Open, D. R. Pigot, Paul 83 (Imp.); British Columbia championship, D. R. Pigot, Birchlands 75.

## POULTRY

An outstanding department of this year's exhibition is the poultry section, under the direction of the Victoria Poultry Association, for which record entries, numbering more than 1,000, were received, the total being considerably in excess of last year's figure. Many birds from Vancouver, Burnaby, and Up-Island districts are displayed in this division.

So heavy were the entries this year that the judges, C. E. Clements, Cashmere, Wash., and Charles Good, Vancouver, who began their work on

## POLES BATTLE TO HALT NAZI DRIVE

(Continued from Page 1)

Two German forces, one advancing from the south and one from the north, previously reported that they crossed the Siedlce rail line, due east of Warsaw. Other German forces are pressing on Warsaw from the north and west.

The vanguard of German forces in Poland was reported at Lwow, 220 miles southeast of the capital, in a drive to cut Poland's contact with Rumania.

## ADMIT RESISTANCE

In addition to the Warsaw and Radom forces, one mainstay of Polish defences has been five divisions and two cavalry brigades which are in a pocket north of Lodz. Their stubborn resistance continued in the third day, but Germans claimed they were closing in slowly.

Turning to administration of Posen, the Western Polish province which has had its German name of Posen restored.

The military is still in control of the province.

## REPORTS RETREAT

LWOW, Poland, Sept. 13 (AP)—(Via Courier to the Rumanian Front)—Poland's battered army resumed its steady retreat to the east today after momentarily holding Germany's smashing land and air attack along the San and Vistula Rivers.

Early Wednesday morning, when this dispatch was being written, the front as nearly as could be told from fragmentary information reaching this bombed and famished city, had been broken by Germany's forces in four places:

1. Thirty miles northeast of Warsaw, at Wyszow.

2. Seventy miles south of Warsaw at Deblin, on the east side of the Vistula.

3. Forty-five miles south of Deblin, at Krasnik.

4. Fifty miles west of Lwow, between Jaroslau and Przemyśl, on the San River front.

## Declares Veterans Ready to Serve in Britain's Struggle

Dominion President of Canadian Legion Expresses Aim of Ex-Service Men to Give Whatever Assistance Required of Them in War

**V**ANCOUVER, Sept. 13 (AP)—Brigadier W. W. Foster, Dominion president of the Canadian Legion, told Canadians in an address tonight that it remained for them as individuals to show that democracy can be more truly united and effective "than that form of government represented by our enemy in the present struggle."

Brigadier Foster said that whatever assistance was required of war veterans, they were ready to serve as an integral part of the forces of the Crown and that "this emergency unites us all as never before in devotion to our country, to the Empire, and in loyalty to our King."

Brigadier Foster said it was one of the compensations of the situation "that in a comparatively short time there should be left in Canada no unemployed ex-service men. Active steps to ensure that, and are being taken in co-operation with the Government."

Brigadier Foster, who is also chairman of the Committee of Dominion Presidents of National Veterans' Organizations in Canada, spoke on "The Veteran and the War."

He recalled that exactly a year ago, in Nova Scotia, he had offered the entire resources of the Canadian Legion to the country should an emergency develop.

## READY FOR SERVICE

By last March, a National Veterans' survey had been launched and before the present crisis came nearly 100,000 veterans throughout Canada were available for service in any capacity.

"Thousands of these are now being used exactly as planned," he said, "and it is anticipated that a great many more will be needed in the immediate future."

Brigadier Foster said that he realized there were differences of opinion as to the best methods by which Canada could exert its maximum influence. He added:

"We, the service men and women, can be assured that the methods proposed and energetically undertaken by our Government have been designed in consultation with the Government of Great Britain, which can best appreciate the situation, and is so immediately involved, we ought to set aside for the time being our own theories and opinions and contribute all our energies to the common cause."

"When, in pursuance of the policy which has been outlined for the conduct of the war, the methods to be employed become more distinct, it will be possible for us to inject into their prosecution that aggressiveness and morale which I know you sincerely desire, and consider essential to ultimate success."

## ACTIONS APPROVED

National headquarters of the Canadian Legion had been in closest touch with the Government, and action already taken by Legion headquarters had his unqualified approval. He would, however, go to Ottawa at once to be able to consult with responsible ministers as to the future contribution ex-service people can make.

Speaking to all Canadians, Brigadier Foster said that they had voluntarily, and through the expressed wish of their elected representatives in Parliament, undertaken a war to preserve that code of life called "democracy."

"We must make sure that in the prosecution of this war we do not ourselves depart from that ideal."

He said that there were in Canada many different racial origins "and we should be on guard against unwarranted suspicions and the cruelties of slander." He added: "It is in the preservation of the essential decencies of our democratic life, in

### SAILED HOME ON KATHLEEN

"Princess" Called Here Early Yesterday Morning for Kiwanis Groups

Diverted on her night run between Vancouver and Seattle, the British Columbia Coast Service Ss. Princess Kathleen called at Pier 1, Rithet Piers, at 3:15 yesterday morning to embark United States delegates following the conclusion of the Kiwanis convention here. The Kathleen then continued to Seattle and was back in Victoria

on her scheduled time of arrival in the early afternoon.

#### VISITORS PARRED

The general free and easy access to piers on liner sailing days enjoyed by citizens of United States ports on the Pacific Coast in the past is a privilege which won't be permitted for some time to come, according to an order issued by the United States Department of State on Monday.

United States customs officials in all Pacific Coast ports were notified of the order and instructed to see that the instructions were carried out. The formal statement, which is placed in effect to prevent any espionage and stowaways not properly entitled to leave the United States, said: "That no visitors will be permitted aboard ships on sailing days. Visitors will be limited to representatives of the Government, employees and officials of operating companies."

#### TUNA PROBLEM

A California solution of the problem involved in the wide disparity between albacore prices in Oregon and Washington and those prevailing in Southern California is that the California fishermen proceed to operate in the north for the present. The California Fish Cannery Association is understood to have sent letters to fishermen and cannery

### German Ships Await Orders From Home

workers' unions and boat owners' associations outlining the situation. Northwest canners are reported to have fixed a price of \$90 per ton. The California cannerymen are paying \$125 per ton. Lower wages also give another advantage to the northern canners, the Cannery Association states. Added to these inducements is the fact that albacore caught in northern waters runs as much as ten times more to the ton than the southern tuna.

#### WAR INSURANCE

The Maritime Federation of the Pacific has notified President Roosevelt that American seamen sailing into the war zone will demand they be provided with a \$25,000 insurance policy and \$250 a month apiece as "war risk" compensation. Other demands presented to the steamship companies incorporated in the communication to the Chief Executive of the United States, include: A 60 per cent increase in present wages to be made effective immediately upon entry of any American vessel in such trade. Bonus to be increased 50 per cent for entering any blockaded zone. One hundred dollars to be paid for each port touched in these zones. In the event the ship is lost, the crew must be returned to port of signing with bonuses, wages, subsistence and transportation to be paid in full.

"We wish to call your attention to the importance of forcing the shipowners to honestly negotiate with the maritime unions, especially during the period of world-wide crisis, so that the United States may be completely united against Fascist aggression," the letter to the President reads.

#### GIVEN WARNING

The United States Maritime Commission radioed a general broadcast this week to all United States shipmasters to remove suspicion that the ships are "enemy" merchantmen by the following explanatory message: "American vessels should not zig-zag nor 'black out' and should have the American flag painted on each side of the hull, on hatches fore and aft and on sun deck of passenger vessels, with flag on staff spotted by light at night."

This order follows the practice of all shipowners of neutral countries. All now have painted the flags of their respective countries, port and starboard on the hatches, abeam and aft.

Produce of the Soil Contrasts With Industrial Exhibits in Other Sections of Willows Exhibition — Dahlia Show Is Now in Progress

CONTRASTING with the industrial displays to be seen in other buildings at the Willows Exhibition, the Main Building presents the floral and vegetable gifts of Mother Nature in cleverly-arranged exhibits that contain all the attractiveness of a real fair.

Here may be seen glorious floral blooms that surpass the colors of the rainbow, fruit and vegetable entries that illustrate the fertility of Vancouver Island, and educational exhibits by the Dominion and Provincial Governments that suggest methods of combating agricultural pests.

Competitions for professional and amateur growers have resulted in a very large number of entries in all classes.

Yesterday the annual dahlia show was opened and many new and old favorite varieties were on display. The show will conclude on Saturday.

Almost every known type of fruit and vegetable is to be seen in the competitive classes.

One of the highlights of the building is the South Vancouver Island display, which was prepared by John Nymfyr. Artistically arranged against a background of black velvet, it displays the fruits of the soil of the Lower Island to best advantage.

### AVERT TIE-UP ALONG COAST

Union Longshoremen and Employers Agree to Negotiate Their Differences

SAN FRANCISCO, Sept. 13 (AP).—A potential tie-up of United States coast ports when present working agreements expire on September 30 appeared averted as union longshoremen and waterfront employers, breaking a month's impasse, agreed to resume negotiations today and to keep the old contract in force until a new one is signed or negotiations are deadlocked.

Harry Bridges, president of the International Longshoremen's and Warehousemen's Union, Congress of Industrial Organizations member, proposed the two factions meet today to discuss the new agreement and suggested "if no agreement is reached between us by September 30 that negotiations and present contracts continue indefinitely beyond that time until such time as a new agreement is reached or negotiations end in disagreement."

Frank P. Foote, Waterfront Employers' Association president, immediately accepted the proposal on behalf of this organization.

Bowel troubles, although happening at any time of the year, are more prevalent during the hot summer and early fall months.

Summer Flu is one of the worst troubles, but hemorrhoids, dysentery, colic, cramps and pains in the intestines, or any looseness of the bowels should have immediate attention.

The action of Dr. Fowler's Extract of Wild Strawberry is pleasant, rapid, reliable and effectual in helping to check the unnatural discharges.

It has been on the market for the past 94 years, so why experiment with new and untried remedies? Get "Dr. Fowler's" and feel safe.

### RECALLS BRAVE RESCUE AT SEA

London Publication Relates Attempts to Remove Ship's Crew

An article on London's square-rigged sailing ships during the last days of sail in the September number of The P. L. A. Monthly, recalls the heroic rescue of members of the crew of the Cambrian Chieftain by the three-masted bark Dee in 1894.

The Cambrian Chieftain, on a passage from Newcastle, New South Wales, to Valparaiso, was sighted in a heavy gale of wind on her beam ends with all her boats carried away. With great skill the captain of the Dee manoeuvred his ship to windward, and with the wind blowing its hardest, the second mate and four of the crew volunteered to attempt a rescue. They got the boat away, but it was impossible to get alongside the Cambrian Chieftain, so Mrs. Thomas, the captain's wife, and her two small children, together with the apprentices and some of the crew, fourteen in all, were lowered into the water and hauled aboard the boat by lines; a very hazardous operation, calling for expert seamanship.

"The boat made its way back to the Dee. Mountainous seas threatened to sink it, and in spite of careful handling, the boat was half full of water by the time the rescued were safely on board the Dee. Then a second trip was made by the second mate and three different men of his own crew and one who had been saved from the Cambrian Chieftain. Their shipmates were anxiously watching them battling their way back when a terrific sea capsized the boat. Neither the boat nor its crew were ever seen again.

"It was impossible to launch another boat, and Mrs. Thomas and her children sailed away to mourn the loss of their husband and father. Imagine their joy when the Cambrian Chieftain, by this time officially posted as lost, turned up a long time after at a port on the west coast of South America."

In my lovely slum bath this morning I suddenly decided that most contemporary newspapermen make me sick, too. Here we sit, snugly airing our views; propounding deep prophecies; citing the sage sayings of the "Greater Mouths" as if they were our own; and very cleverly; raking up ancient history and principles and foolishly using and applying them in hopes that we can spoof the Public into thinking that a deep ring of authenticity and wisdom emanates from our own Trothy pronouncements—in other words, "whole" cordons of Canadian and American newspapermen who have never scratched one cubic centimetre of foreign soil with their big toes, are not only showering their unskilled-for "spoutings" upon the heads of the Common People, but also upon Kings, Presidents, Governments and Dictators.

## THE RECTOR'S SPECTRE

Outside of mighty London town, There nests a Village, humble, Whose cobbled streets of mossy brown Are deaf to traffic's rumble.

And yet, within that haven, quaint, So purged of strife and bustle, A stranger, passing, hears a faint And eerie "something" rustle!

A whirring sound; of rubbered wheels!—

And yet—no vision flashes!— But hark! A puny bell that peals!— Then—onward, "something" dashes!

It is the Ghost of one that creaked In misery, for ages, Upon a bicycle that shrieked Its decomposing stages!

The Rector hated it. His pride Was torn, his ire kindled— But poverty cared his side— (In Grief, the Rector dwindled).

In time, his harassed mind became Distracted with vengeful passion Arent that vehicle of shame, And prehistoric fashion.

Within his bittered soul, he swore A cycle he'd be riding, Whose unctious sheen and motions bore The lik of Angels, gliding!

But, passing years increased his plight; No pennies fell from Heaven— But babies, fat—and every night The Rector tucked in seven.

At last, by Desperation gripped, One Sabbath morning, sunny, Into his trousers, he slipped, The Congregation's money!

Oh night of plague! His soul was rent— 'Twixt avarice and sorrow— (Yet, to the Cycle-works he went, Right early, on the morrow!)

L'ENVOIE

Alas! How can a weak and wreck! Though, for his God, he sought it, That cycle broke the Rector's neck. Upon the day he bought it!

Concluding—though this Epic robs A Village of a Rector, A certain compensation throb— (The Village gained a Spectre!)

Desbriay et al. (A) vs. Canadian Government Merchant Marine et al. (B)—This is an appeal arising out of the fire that destroyed the Canadian National Steamship Terminal in Vancouver in August of 1930.

The plaintiff company was in the canned salmon industry and had arranged with the Canadian Government Merchant Marine, Limited, to ship by one of its freighters 1,394 cases of salmon, and were instructed to deliver the goods to the dock of the Canadian National Steamship Company. This was done, and the plaintiff company had destroyed in the fire.

Plaintiffs sued the Merchant Marine Company as carriers and the National Steamship Company as warehousemen or wharfingers. At the trial, Mr. Justice Manson dismissed the action against both defendants.

R. L. Maitland, K.C., in opening the appeal, said this was in the nature of a test case, and that fourteen other companies were interested in the decision. On behalf of the appellants, Mr. Maitland argued the Merchant Marine Company were liable as carriers for the safe custody of the goods as soon as they had directed where the goods were to be sent. The liability of the steamship company as warehouse-

**PROBE COUNSEL**  
**PRESENT VIEWS**

**Inquiry Into Vancouver**  
**Police Affairs Completed—**  
**Decision Within Ten Days**

VANCOUVER, Sept. 13 (CP)—Paul  
McD. Kerr, counsel for Mayor Lyle  
Telford, in a two-hour summary to-  
day told members of a special police  
commission inquiry that charges  
made by the mayor against Chief  
Constable W. W. Foster and mem-  
bers of the police department "are  
justified."

"From a strictly legal standpoint  
some of the charges are not justified,  
but I submit that the majority are,"  
Kerr said as the inquiry completed  
fifteen days of sittings.  
Decision of the commissioners.

Judge A. M. Harper and Police Mag-  
istrate G. R. McQueen, is expected to  
be released within ten days.  
Kerr deplored the fact that the  
mayor personally had been the sub-  
ject of an attack by General J. A.  
Clark, counsel for the chief con-  
stable, and asserted that everything  
Mayor Telford had done "is for the  
good of the city."

**ASKS MAYOR'S DISMISSAL**  
(General Kerr, in his summary of  
evidence, today recommended that  
the commission ask the City Council  
to deduct from the mayor's 1940  
salary sufficient money to pay legal  
costs incurred by Chief Foster and  
other police officials in defending  
themselves against his charges.)

"The chief of counsel said the mayor  
had failed to produce "a little of evi-  
dence" to back his charges.  
Kerr said that the mayor had at  
first urged a private inquiry and  
that if such a course had been fol-  
lowed "a number of things would  
have been brought out."

"We couldn't investigate reports,  
rumors and inquiries at a judicial  
hearing," the mayor's counsel said.  
"There has been a loss of benefit  
which would have resulted from a  
private inquiry."

He said the mayor, as a layman in  
legal matters, was in a somewhat  
embarrassing position in a judicial  
probe, having built up a case in his  
own mind and finding himself at a  
disadvantage in the hands of a  
cross-examiner.

## Householders Hurry To Purchase Stocks Before Prices Rise

**Rush of Buying Reported by Stores in Anticipation  
Of Federal Tax Increase—Vancouver Whole-  
salers Explain Effects of Wartime Budget**

**C**ONJECTURE was rife in Victoria, as elsewhere, yester-  
day on the effect the Dominion Government's war pur-  
poses taxation measure will have on retail prices for food-  
stuffs and essential commodities.

With a more or less general rise in prices even before Ot-  
tawa announced the schedule of increased taxes to enable Cana-  
da to pay her war bill, householders were in a hurry yesterday  
to lay in supplies of many essentials before prices are again  
jacked up when the new taxes are applied.

City stores reported a heavy rush  
of buying yesterday morning before  
the stores were closed for the half-  
holiday, and the crowds waiting at  
the counters were almost as big as  
those to be seen during the pre-  
Christmas period.

Despite frequent assurances that  
there would be no shortage of sugar  
here, once the refineries were able  
to catch up with the abnormal de-  
mand, housewives were still clamor-  
ing for sugar yesterday, and had to  
be content with small lots, many  
storekeepers being forced to limit  
the amount they would sell to any  
one customer to two pounds.

Many who hoped to lay in sup-  
plies of liquor before the imposi-  
tion of the Federal tax increase were  
disappointed yesterday, for the price  
increase of fifty cents on a reputed  
quart and seventy-five cents on an  
imperial quart of whiskey went into  
effect in the afternoon, with corre-  
spondingly higher prices charged for  
other forms of liquor.

**WHOLESALESALE'S VIEWS**  
VANCOUVER, Sept. 13 (CP)—As  
manufacturers and wholesalers stud-  
ied provisions of Canada's wartime  
budget, coffee dealers estimated that  
the new duty of ten cents a pound  
on green coffee imports might result  
in an advance of the retail price by  
as much as twenty cents a pound,  
because allowance has to be made  
for a 16 per cent shrinkage in the  
roasting process.

Other products will also advance  
in price shortly, but dealers think  
the coffee increase will prove to be  
the largest in food products. Bacon  
is expected to be about two cents a  
pound more expensive, and tea from  
five to ten cents.

Electric light and gas bills in the  
domestic field will be increased  
eight cents on the dollar.

**EASILY ADVANCE**  
"Prices of most commodities af-  
fected will probably advance as soon  
as present stocks are exhausted," R.  
V. Robinson, acting secretary of the  
Canadian Manufacturers' Association,  
British Columbia Branch, said,  
adding that this would be almost  
immediately in some cases.

"Stocks of coffee are low, so that  
the new price will have to come into  
effect soon on new importations," a  
member of the Coffee Roasters' As-  
sociation said.

Stocks of tea in British Columbia  
are also low, and this commodity  
will also feel the effects of the new  
tax soon.

Removal of the 8 per cent sales  
tax exemption from smoked meats  
and canned fish will also be felt  
here.

"It simply means that the con-  
sumer will pay a little more for his  
canned fish," Mr. Robinson said. "Of  
course it does not affect fish for  
export. British Columbia controls  
the domestic market and the only  
way in which canners will be touched  
is in the possible curtailment of  
buying."

He said the increase of house-  
wife in the price of fish would  
range from one to three cents per  
one-pound can, depending on the  
grade purchased.

**ELECTRICITY AND GAS**  
E. E. Walker, light and power  
sales manager for the British Col-  
umbia Electric Railway Company,  
said officials of the firm had asked  
for further details from the Domi-  
nion Government as to the removal  
of the sales tax exemption covering  
electricity and gas used for domestic  
purposes.

He stated they did not know  
whether the increase in the Federal bud-  
get would be to the consumer with  
September's bills, or whether the  
tax would become effective on Oc-  
tober 1.

The sales manager said his firm is

## City and District

**Rowboat Stolen**—P. Hodder, 704  
Esplanade Road, reported to police  
yesterday that a nine-foot round-  
bottomed rowboat had been stolen  
from his premises.

**Five Fined**—Three motorists were  
each fined \$2.50 in the city police  
court for night parking. Two others  
were each fined \$2.50 for parking  
over the hour limit.

**Hunter Fined**—Yesterday in the  
Provincial Police Court a hunter was  
fined \$10 and \$2.50 costs for being  
in possession of a deer without hav-  
ing a game tag on it. He pleaded  
not guilty to the charge.

**To Be Tried**—The trial of Ray  
Smalley, charged with an indecent  
assault upon a female, will proceed  
before Magistrate Henry C. Hall in  
the city police court this morning.  
The accused is represented by H. A.  
Beckwith.

**Plant Entered**—It was discovered  
early yesterday morning that entry  
had been gained to the Pantheon  
Dye Works of Canada, Ltd., at 905  
Fort Street, by breaking a large pane  
of glass on the Meers Street side of  
the building. Nothing was taken.

**Victoria's Temperatures**—Maxi-  
mum and minimum temperatures  
recorded yesterday at the Dominion  
Meteorological Observatory on Gon-  
zales Hill were 66 and 48 degrees,  
respectively. The same temperatures  
were registered at Victoria College.

**Paint Elevator**—Tenders for ma-  
terial and labor needed to water-  
proof the grain elevator at Ogden  
Point must be in the hands of the  
city purchasing agent by 11 o'clock  
Monday morning. They will be  
opened by the City Council at the  
next regular meeting.

**Men Missing**—The Dominion Im-  
migration Department informed the  
police yesterday that John R.  
Bridgeman, twenty-one, British, was  
missing from Ss. Mooby at New  
Westminster. John G. Allen, twen-  
ty-one, was also missing from Ss.  
Baron Incheape at Vancouver; and  
James Bray, seventeen, from Ss.  
Loch Monar at Victoria.

**Engineers Meet**—In the event of  
property or street damage through  
war measures, municipal engineers  
of Greater Victoria will co-operate

but he would not estimate to what  
extent.

At Queen's Park in Toronto, Prem-  
ier Hepburn predicted tremendous  
fall in provincial revenue owing to  
the new income tax imposed by  
the Dominion Government. Mr.  
Hepburn was reported considering a  
surtax for Ontario to make up for  
the loss.

**SURVIVORS TELL  
OF EXPERIENCES**

**Continued From Page 1**  
freighter City of Flint and two  
United States coast guard craft,  
were aboard the train when it pulled  
away from the big immigration shed  
by the harbor side.

Completion of the immigration  
Department's check of the survivors  
showed ninety-six were headed for  
Canada and 120 for the United  
States.

**TASK COMPLETED**  
All day from the time the Flint  
and her escort of coast guard ships  
brought in their human freight, the  
immigration quarters were alive with  
effort as officials and relief workers  
struggled to sort out, feed and clothe  
the refugees, and minimize the in-  
jured among them. By nightfall,  
the job was just about done.

Every passenger had his or her  
personal account, but on this one  
they all agreed:

That the liner Athena, heading  
for Montreal from England with a  
full complement of passengers on  
board, was torpedoed and sunk by a  
submarine.

On the Sunday evening of Sep-  
tember 3, survivors recounted, a per-  
iscope thrust itself up from the sea  
200 miles off the coasts of Canada  
and a white wave spread out toward  
the Athena. In a moment an ex-  
plosion tore out the ship's vitals,  
rocking her from stem to stern.

Some of the passengers said that  
afterwards the submarine emerged  
from the water, and while the Don-  
aldson liner slowly settled for her  
last plunge, directed gunfire at her.  
Survivors were still trying to get into  
the boats.

**TWO SHOTS FIRED**  
"It fired two shots," said John  
London, of Bradford, England, who  
helped four members of his family  
to safety. Declaring he "both saw  
and heard" the shots, he said they  
landed on the forward deck where  
there must have been passengers.

Later, London and other passen-  
gers said the sub bobbed up in the  
midst of the lifeboat flotilla during  
darkness but made no attack. One  
lifeboat almost hit the periscope.

A few of the lifeboats, loaded  
with as many as eighty persons,  
overturned and some of their occu-  
pants drowned.

Two capsized as they rubbed  
against the very side of the luxury  
yacht Southern Cross, which took  
off hundreds of the castaways.

It was from the Southern Cross  
that the City of Flint took her  
refugees, meeting the yacht as she  
headed for New York with a cargo  
of whisky and fertilizer. Her fac-  
ilities overtaxed, the Southern Cross  
headed back to England with those  
she could accommodate.

On the City of Flint, the more  
than 200 survivors were scattered  
over every inch of the ship, built  
to carry only a half dozen passen-  
gers. She already had aboard forty  
persons anxious to escape Europe's

## JUMP-OFF IS STAR FEATURE

**Spectacular Finish to Riding  
Event at Willows Fair  
Horse Show**

A spectacular jump-off between  
R. G. Shanks, mounted on Chiquita,  
and A. J. MacPherson, up on Rob  
Roy, in the Vancouver Island  
Jumping Sweepstake, highlighted  
last night's Horse Show programme  
of the Provincial Exhibition at the  
Willows.

The sweepstake, sponsored by  
Commander C. H. R. Slingby, Mr.  
and Mrs. J. G. Hazlewood, A. P.  
Dawe and David Spencer, Ltd.,  
called for five jumps over timber  
hurdles, post and rail, and triple-  
bar obstacles, and Messrs. Shanks  
and MacPherson tied for first place  
after the regular turn around the  
ring. The bar was raised for the  
jump-off, and R. G. Shanks took  
the honors with a clean-cut per-  
formance over the ticks. Third  
place went to Miss Terese Todd,  
on Chango. Performance only  
counted.

Only three entries competed in  
the hunting teams event, sponsored  
by Dr. J. D. Hunter, for the best  
three hunters over four successive  
jumps of brush and timber, points  
being given for teamwork, manners  
and conformation, and performance.  
Mrs. H. J. Fisher, of the Hurrath  
Kate, Chango and Chiquita took  
first place, with A. J. MacPherson's  
Rob Roy and mates second, and an  
entry from the Victoria Riding  
Academy placing third.

**SMART PERFORMANCE**  
A smart riding performance by  
Miss Verna Yarrow as she took  
Allegro over two successive three-foot  
six-inch jumps gave her possession  
of the silver cup donated by Mrs.  
L. F. Long in the children's jump-  
ing class, open to boys and girls  
under fifteen years. Ribbons were  
won by Miss Sonia Stewart on Sil-  
ver, second; Master P. Burchett on  
Romany Bay, third, and Miss Betty  
Denniston on Mouse, fourth.

Applause greeted the six-horse  
teams entered by Robert Thornburn,  
Vancouver; Charles C. Gordon, Car-  
stairs, Alta., and the Crystal Dairy,  
Vancouver as they were put through  
their paces for the second night in  
succession. The third and final  
showing will take place tomorrow  
evening, when the winning teams  
will be announced.

Fanchon and Marco's comedy at-  
tractions again proved a big hit with  
the audience, which laughed heartily  
at the antics of Jack Joyce and  
company's Ajax, the comedy mule;  
the football-kicking mule, and  
Wright and Company's "Charlie the  
Horse," and "Perry the Bull" turns.

The trained performance of Cun-  
ning's educated dogs and ponies  
also drew big applause.

**SPECIAL FEATURE**  
As a special feature, a parade of  
prize-winning stallions at the fair  
was staged in the ring during the  
evening, and the leading colt of  
Western Canada fair was also  
shown.

Tonight's horse show programme  
includes a two-horse team event,  
pairs, jumping class, and further

**Pressing for Removal  
Of Forces From China**

SHANGHAI, Sept. 14 (AP)—A re-  
liable source asserted today that the  
Japanese were increasing pressure  
on British and French military offi-  
cials to gain acceptance of Japan's  
request for withdrawal of the Allies'  
armed forces from China in view of  
the war in Europe.

**MEETINGS POSTPONED**  
LONDON, Sept. 13 (CP)—Sessions  
of the League of Nations Council  
and Assembly have been indefinitely  
postponed because of the war, but  
will be held at Geneva "when prac-  
ticable," the Foreign Under-Secretary,  
Richard Butler, told the House  
of Commons.

**Dark on Decks**  
"It was dark when we came on  
deck—too dark to distinguish any  
markings on the submarine."  
With water swirling about her  
waist, Mrs. Reginald Hunt, of Dixie,  
Que., carried her two young chil-  
dren safely while the stricken  
liner sank.

Deep down in the interior of the  
ship, Mrs. Hunt and three-year-old  
Sylvia and six-year-old Cynthia  
found the sea creeping up on them  
as it poured through the gaping  
hole opened by the projectile.  
Smoking the youngsters up in her  
arms, she waded to a stairway and  
made the comparative security of  
the upper deck.

Waiting for them as they came  
ashore was Mr. Hunt, who for three  
days after the torpedoing, had re-  
ceived no word from his wife and  
children.

Resourcefulness and courage of  
the women was praised by refugees.  
"Their conduct was wonderful,"  
said Henry E. Tomlinson, of Sydney,  
N.S.W., one of those taken to hos-  
pital on arrival. "In our lifeboat,"  
he said, "One woman stripped off  
her skirt and gave it to a cook who  
had come into the boat wearing  
only thin underwear."

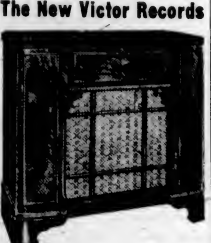

He said the same woman sat  
down with the men and pulled at  
an oar during the seven hours  
those in the boats awaited help.

**VESSEL RELEASED**  
LONDON, Sept. 13 (CP)—The In-  
formation Ministry disclosed tonight  
that the United States steamship  
Black Opory was taken into Wey-  
mouth on September 6, but was al-  
lowed to proceed after its cargo was  
examined for contraband.

**FIXING FOOD PRICES**  
LONDON, Sept. 13 (CP)—The  
budgeting housewife is getting some  
help from the Government. The

**Centennial W.M.S.**  
At Centennial W.M.S. on Monday, Mrs. Selwright, in an address on the principles of the League of Nations referred to an offhand statement by unthinking people "that the League is a failure." "We hear also," said the speaker, "that Christianity is a failure, but we do not lose our faith in Christ because of this remark. Neither should we drop the League for partial failure; nor because some nations failed to keep their pledges, thinking to get what they wanted by short cuts, reverting to worn-out methods of secret diplomacy and power politics." The League still stands as the greatest attempt in history to settle disputes between nations by co-operation instead of war. No better substitute has been offered the world. World conditions today demand that we strengthen the peace, co-operative spirit in our own lives and unite to support these Christian principles of the League, which are really "peace in action," she said. Mrs. E. Farquhar quoted the words spoken by the King in Victoria. "Some day the nations will live by co-operation instead of conflict." Reading from an address of Mrs. Nellie McClung, members were told of the invaluable work the League has done and is continuing to do, through its international health board, labor office, tariff recommendations, refugee committee and peace literature bureau. For the asking, information on the League's work and plans may be had from Ottawa, 124 Wellington Street, League headquarters.

The invited guests were Mesdames Chapman, Little, McKay, Crawford, Matheson, Larkey, Dilson, Thomas, St. George, Dickie, Robertson, Rain and Oliver, and Misses Stinson, Horrod, Leslie, Ratcliffe and Watt. Vocal and instrumental selections added pleasure to the afternoon.

## Women's Institutes

### PARKSVILLE

The first meeting of the Fall season was held by the Parksville W.I. on September 8, at the Memorial Hall at Errington, with the president, Mrs. Tryon, in the chair. Sympathetic reference was made to the loss in action of Colonel Playfair's son, Anthony, who had been killed the day before while serving with the R.A.F. overseas. It was announced that the Parksville Women's Institute would co-operate with the W.A. of the local branch of the Canadian Legion in any work which the latter undertook during this conflict. Nursing lectures may be held under the Red Cross. Decision on this plan will be made later. Two interesting articles were read. The first was taken from The London Weekly Times and described the warped and untruthful propaganda which has been circulated throughout Germany about Britain and British. The second article described the splendid physique of the young men who are being examined for the army in England. The roll-call for the next regular meeting will take the form of "something to eat, wear or play with" to be sold in aid of W.I. funds. The Errington ladies served tea, following the business session.

### Visiting Seattle

Misses Louise and Olive Ormond have gone to Seattle, where they are vacationing for a few days.

### SKETCH CLUB

The Sketch Club of the Island Arts and Crafts Society will meet at the home of Mrs. J. Newbury Haich, 182 Barkley Street, Gonzales, on Monday, September 18.

"What you seem to want, friends," said the stranger to the earnest young performers, "is a place where every young person has to be good by law; where smoking is not allowed, and drink is unknown. Where everyone has to go to church, and everyone keeps regular hours." "Oh, to find such a place," exclaimed a soulful fellow. "Easy," replied the stranger. "I've just come out from doing twelve months in one!"

### Bride and Groom to Live in Victoria

MR. AND MRS. RAY MAITLAND

They were married on Saturday afternoon at the price revision upward. It was foreseen.

Exemption of present sales taxes from smoked and canned meats will catch the pork trade, and may bring 10,000,000 pounds of a total of 36,000,000 pounds handled yearly within the operation of the 8 per cent sales tax, it was said. This is exclusive of corned beef, a smaller but still material item.

### CANNED FISH

British Columbia fisheries catch it hard, the 8 per cent sales tax going down on a wide range of canned fish, and probably shellfish as well. The main fishery product, canned salmon, is hit at once; as may also be canned pilchard, canned herring, canned crab and canned clams, to mention only a few of the chief varieties handled.

### HOUSEHOLD COSTS

Less clear, but impending, were increased charges for the consumers of electricity and gas. Officials of the Public Utilities Commission said the commission might have to recognize rate schedules with an 8 per cent addition, if such schedules are filed by the utilities concerned. The total effect of this, or whether any part of the sales tax would be absorbed or not, could not immediately be ascertained. The board, however,

is prepared to incorporate the tax in present ratified schedules, if asked to do so.

In the fisheries division, the added sales tax may have adverse effect on the disposal of British Columbia canned fish abroad, where world market conditions have already been difficult for the trade, due to price cutting by other nations and severe competition. Official comment, however, was withheld on this phase of the issue, until the precise results may be gauged.

### CONSUMERS TO PAY

One way or another, the budget promised to make its effects felt throughout the province, and in almost every walk of life. No accurate estimate of the total cash difference could be secured, due to uncertainty as to whether or not any part of the various increases will be absorbed. It seemed reasonably clear, however, that in many cases, direct and indirect, the consumers would have to do most of the paying, as their contribution to Canada's wartime effort.

## Steveston Bill Wins Oak Bay Handicap At Local Race Track

Favorite Carries Off Lion's Share of Purse in Feature Event—Avondale King Second and Blore Heath Third—Large Crowd in Attendance

Steveston Bill, odds-on favorite, took the lion's share of the \$500 purse in the Oak Bay Handicap, a feature event on yesterday's racing card at the Willows track. Always well up, the winner overhauled Avondale King, the pace-setter, in the final eighth and won handsily. Blore Heath was third four lengths behind Avondale King. Steveston Bill paid \$3.35 straight, \$3.30 place and \$2.70 show.

With a grand display of form, favorites dominated the day's galloping, getting down in front in five of the seven flat races—Maggie Bell was the only badly beaten favorite, finishing fourth in a field of eight horses, in the second race. Hi Rhythm, a second choice mount, won the opening gallop, scoring over Mac Phalaris, local-owned thoroughbred.

Between 3,500 and 4,000 racers filled the large grandstand and lined up many deep against the rail immediately in front of the track. The attendance was the biggest for the present meeting, and wagering on the handicaps was reported exceptionally brisk.

His Selection, seven-year-old black gelding from the Brierley Stables, scored his second triumph of the meet when he registered a neck decision over Stolen Color in the fourth race at six furlongs and thirty yards. The winner broke out

and made every post a winner, but was subjected to punishment to hold off the dangerous challenge of the place mount. Little Argo took the show position.

### SECOND TRIUMPH

George Addison, leading trainer on British Columbia tracks this season, saddled the winner in the seventh race when Simtee, from the Riverview Stables, led the parade to the wire. It was the second victory in successive days for the five-year-old thoroughbred.

Leeward, after racing in a lot of hard luck during the season, finally won yesterday when she galloped to victory in the fifth event at one mile. With Jockey Simpson aboard, the winner went on top entering the back stretch and held the advantage to the wire.

Pride and Joy, little better than a four-to-one shot, topped the second race and paid \$10.00, the only double figure straight return posted on the board during the day.

Riding honors for the day were well divided with none of the hard-boots scoring more than once during the afternoon.

The daily double, Pride and Joy and Broadway Star, paid \$31.45, while the one-two bet in the seventh returned lucky punters \$10.40.

Another good card of racing will be presented today with four prints and three distance events listed. First post time is 1:45 o'clock.

### What Today Means

**"VIRGO"**

If September 14 is your birthday, the best hours for you on this date are from 9:15 to 11:15 a.m.; from 1:15 to 3:15 p.m.; and from 7:15 to 9:15 p.m. The danger periods are 7:15 to 9:15 a.m.; from 5:15 to 7:15 p.m.; and from 9:15 to 11:15 p.m.

There may be many optical illusions this day, so be careful you are not misled by one. Success may be measured by accomplishment rather than by a monetary standard. The digestive organs should be considered before giving in to any craving you might have for sweets or very rich viands. Avoid any form of nagging. For most persons are apt to show their resentment of it in no uncertain manner. Concurrence in making verbal or written statements will prove most effective this day. To avoid making long explanations. Personal freedom, particularly in the way of self-expression will make the average person resentful if anyone attempts to curtail his individual rights, or attempt to dictate what he should or should not do. This applies particularly to married and engaged couples, as well as sweethearts.

If a woman and September 14 is your birthday, while you may not

necessarily be an active churchgoer, you are apt to be instinctively religious. Generous impulses probably will lead to your doing many kindly deeds, and it may be through one of these that you will be greatly benefited financially. You might find it difficult to associate yourself in business with anyone as capable as yourself, so if you ever form a partnership be prepared to make allowances and to do most of the hard work yourself. Your best chance to climb

the ladder of success may come to you as a news reporter, author, artist, musician, actress, through promotional, educational, or a specialized form of commercial work. It perhaps will be as a wife and mother that you will find your greatest happiness will come.

The child born on September 14 requires a world of love to keep it in a happy frame of mind. The parents of such children should display a real interest in everything that is of

concern to these youngsters, especially their hobbies and diversions.

If a man and September 14 is your natal day you are apparently very observant, blessed with a retentive memory and perhaps very good business judgment. As a merchant, manufacturer, inventor, architect, promoter, politician, broker, moving picture, radio, or legitimate stage actor, writer or journalist your achievements may be outstanding.

**PLAYFUL**

On the day after his first—and last—boxing match, a sad and disappointed man hobbled off to see a doctor. His head was bandaged, his arm in a sling, his face a mass of sticking-plaster, and he had borrowed a crutch.

"Hurt yourself?" asked the doctor. "Hurt myself! The patient grunted.

"Feel any pain?" asked the doctor. "Feel any pain! The patient gave a second disgruntled grunt. He couldn't feel anything else."

"Look as though you've had an accident," observed the doctor. "Oh, no," replied the patient, finding his voice at last. "Not at all!"

"Then, perhaps," suggested the doctor, "you've been indulging in some rough sport?"

"That's it," said the patient. "I've been blowing bubbles."

## PLAN ECONOMIC BOARD FOR WAR

Nanaimo Organizations Set Up Council for Activities During Conflict

NANAIMO, Sept. 13.—Nanaimo Board of Trade took the initial step tonight to form an economic council, following receipt of a letter from the Nanaimo branch of the Canadian Legion offering their co-operation with the board in any plans benefiting the community during the present war crisis.

The board is calling a meeting on Wednesday, September 20, of representatives of various business concerns, the city council, social and service clubs, with a view to appointment of seventeen committeemen to formulate and carry out plans for establishment of a council.

The board also decided to follow the steps of the Victoria Chamber of Commerce—in offering their services, or to assist in any national service necessary, to Military District 11, or to the Provincial Government, in the present crisis. The board endorsed a resolution of the Property Owners' Association of Vancouver asking that the Provincial Government take over the costs of maintaining schools, thus relieving property owners of present high taxes. The cost to the Government would be met with a higher income tax, to spread school costs over a wider field.

**That Body of Yours**  
JAMES W. BARTON, M.D.  
CAUSE OF SEVERE ATTACKS OF ASTHMA

It is interesting to see how the knowledge of asthma and its treatment has progressed in the last

twenty to thirty years. There was no known cause in my student days and treatment was by amyl nitrite (inhaled) or nitroglycerin.

Then came the knowledge that some stoppage of the passages of the nose was the cause and removal of spurs and straightening of the septum (division between nostrils) certainly helped a great many cases.

When it was later found that sensitiveness (allergy) to various foods, dusts, pollen and other substances caused the attacks of asthma, it was felt that all about the cause of asthma had been discovered. More recently it has been shown that nervousness and emotional disturbances, while not a cause in itself, was a real factor in bringing on asthmatic attacks in many cases.

The most recent information on the cause of asthma is recorded in the Oklahoma State Medical Association Journal by Drs. R. M. Baley and L. E. Seyler, who believe that more than 90 per cent of all cases of intractable (very severe) asthma are due to two causes:

(1) Sensitization factors (food, fur, feathers, dust pollen) (2) mechanical factors (plugs of mucous, pus-like formations in bronchial tubes and dilations—permanent enlargement of the little air sacs in the lungs).

These physicians believe that the formation of these little plugs (which close or partly close the little tubes carrying air in and out of the lungs) is of equal importance with sensitiveness in causing attacks of asthma. Most in these cases start with a swelling of the little bronchial tubes due to the substance to which the patient is sensitive, just as the lining of the nose and throat swell when attacked by these substances. A little later some infection occurs in the nose, throat and bronchial tubes and this leads to the formation of mucous and pus-like material which forms plugs. It is the plugging up of the little bronchial tubes which causes attacks of asthma.

In the milder forms of asthma, the little plugs of mucous can often be removed by kneeling on a chair, putting hands on the floor, head between hands and coughing vigorously for a minute or more.

"What would you like, sir?"  
"A gallon of petrol and a quarter-pint of oil."  
"Yes, sir, and shall I breathe into the tires?"—Musket, Vienna.

"I met my wife on a cheap excursion."  
"Yes, we all economize in the wrong place."—Lordingsviken, Oslo.

## Bob Feller Hurls Cleveland to 9-4 Win Over Yankees

Young Mound Star Chalks Up His Twenty-First Victory as Clubmates Sweep Series—Veteran Lefty Grove Turns in 1939 Masterpiece by Blanking the Detroit Tigers, 1-0

By The Canadian Press

Bobby Feller, the Cleveland fireballer, beat the champion Yankees, 9-4, yesterday, for his twenty-first victory and a sweep of the two-game series for the Indians.

As a result, New York's lead in the American League was sliced another full game to fifteen over Boston Red Sox.

The veteran Lefty Grove turned in his 1939 masterpiece for the Red Sox by blanking the Detroit Tigers, 1-0, with a sparkling four-hit performance.

FOURTEENTH VICTORY  
While chalking up his fourteenth victory of the season and the 283th of his career, the aged southpaw forced seven of the Tigers to whiff, denied them a base on balls and capped it all with a perfect day at bat, a single and two passes out of three trips to the plate.

Freddie Hutchinson gave the sockers seven hits during his seven innings on the mound.

The Cardinals trailed Philadelphia into the stretch, then nosed them out with a home run. Joe Medwick's homer with one man on in the eighth gave the Red Birds a 10-9 National Baseball League victory, necessary to keep them in the thick of the pennant scrap with Cincinnati.

The double-header was ordered when President Will Harridge sustained a protest by Washington

Paced by Hank Leiber's two home runs, Chicago Cubs defeated Boston

Leiber enjoyed a perfect day at bat, hitting his seventeenth and eighteenth home runs in his first two times up, and then came up with a pair of singles and a walk.

## TURNESA GOES TO SIDELINES IN GOLF PLAY

Defending U.S. Amateur Champion One of Many Upset Victims

CHICAGO, Sept. 13 (AP)—Canada's two golfing stalwarts in the United States amateur championship were in rare form today and advanced with little difficulty to the third round at North Shore Club.  
C. (Ross) Sandy Somerville, of London, Ont., gunning for the title he won in 1932, defeated T. R. Johnston, of Philadelphia, in the morning round, 6 and 5, and followed it up with an afternoon triumph over Joseph Lunch, of Canton, Mass., 4 and 2.

Joe Thompson, of Burlington, Ont., ousted of Stewart Alexander, Jr., of Burlington, N.C., 2 up in the morning and knocked over Kean Donnelly, of Philadelphia, 4 and 3, in the second round.

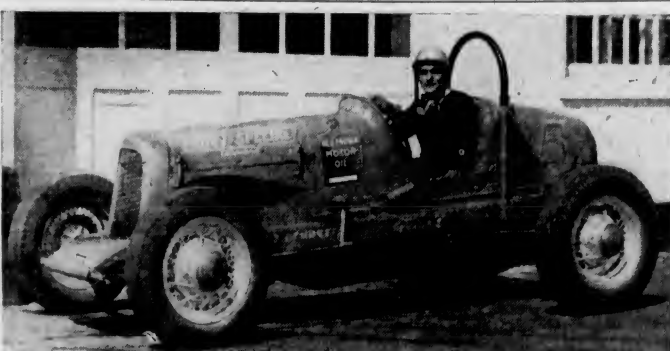

Willie Turnesa lost his chance to repeat his victory of last year but got a royal escort to the sidelines as more than a half-dozen other former favorites—including two former titleholders—bowed out.

Turnesa, an easy first-round victor over Howard Everett, of Oregon, Pa., was eliminated during the afternoon by George Dawson, of Chicago.

GOODMAN BEATEN  
Johnny Goodman, of Omaha, Neb., winner of the 1937 amateur title and the United States open championship here, was one of the stars who faded from the scene.

Others were Johnny Fischer, of Cincinnati, winner of the title in 1936; Tom Sheehan, the young Northville, Mich., player who on Monday and Tuesday set a new all-time qualifying record of 139 for thirty-six holes; Pat Abbott, of Pasadena, Cal., the 1938 finalist against Turnesa; Maurice McCarthy, of Cincinnati, second low qualifier, and Charles Yates, of Atlanta, the former British amateur champion.

## Calento-Nova Bout Will Be Broadcast From Philadelphia

FRIDAY'S fifteen-round heavy fight bout between "Two-Ton" Tony Calento and Lou Nova, will be described over the National Broadcasting Company's blue network, direct from the ring-side at Municipal Stadium in Philadelphia. Veteran fight announcer Sam Taub and N.B.C. sports expert Bill Stern will give listeners the blow-by-blow and color account of the fight. The broadcast will begin at 6 o'clock Victoria time.

Marvin (Bud) Ward, the Spokane, Wash., star, also remained in the running.

Somerville was the only former champion remaining in the play which tomorrow will be reduced in two rounds to a field of four players.

Earlier in the day Canada's other hope in the tournament Phil Farley, of Toronto, was eliminated in a play-off among players with scores of 155 in the qualifying schedule.
